In-class Warm Up

COSC 101C Intro to Computing I

Prof. Forrest Davis

Name:

Discuss and complete the following questions with the person nearest you. You **may** be asked to share your thoughts with the class.

1. Which is better chocolate or peanut butter?

2. Label each of the following in the program below
 - a. Function body
 - b. Function call
 - c. Function definition

Additionally, what makes this function a bit clunky or less abstract?

```
def CircleArea():  
    pi = 3.141592  
    radius = float(input("What is the radius of the circle? "))  
    print(pi*radius**2)
```

CircleArea()
