Name:

Discuss and complete the following questions with the person nearest you. You **may** be asked to share your thoughts with the class.

1. What is the best place in Hamilton to get food?

2. Write a function `randoStr` that has one parameter (a `str`) and returns a `str`. The return string should be a random (between 1 and 10) number of repetitions of the parameter. For example, `randoStr('cat')` might return `cat cat cat cat`. Notice the spacing!
