In-class Warm Up

COSC 101C Intro to Computing I

Prof. Forrest Davis

Name:

Discuss and complete the following questions with the person nearest you. You **may** be asked to share your thoughts with the class.

1. What is the best place on campus to study?

2. Consider the following code. What is the output if the user first inputted frog and then 10?

```
def main() -> None:
    word = input("What did you see? ")
    print("That is a", type(word))
    lower = 10
    upper = lower + 20
    lower = len(word)
    print("I saw", str(lower) + "-" + str(upper), "of them, not", lower - upper)
    count = input("How many" + word + "s did you see?")
    updated = str(lower) + count
    print("I also saw", updated, type(count))
    updated = upper + int(count)
    print("I wish I saw", updated, word, "s")
main()
```
