In-class Warm Up

COSC 410A Applied Machine Learning

Prof. Forrest Davis

Name:

Discuss and complete the following questions with the person nearest you. You **may** be asked to share your thoughts with the class.

1. Do you have any pranks planned for today ?

2. You've just been hired at an AI startup. Your start-up doesn't have enough resources to fine-tune a model but has allocated some for querying an large language model. Your team is in charge of creating a question-answer model for baseball related questions. For example, you expect input-answers to questions about games on specific dates.
 - a. Formulate the task in a way that you can solve (at least part) of this given the limitations.

||
||
||
||
||
||

- b. How would evaluate success? What approaches would you take to improving the model performance?
